Full Environmental Assessment Form
Part 2 - Identification of Potential Project Impacts

Agency Use Only [If applicable]
 Project : SSC Oswego LLC Solar Site Plan
 Date : February 17, 2020

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

Full Environmental Assessment Form
Part 3 - Evaluation of the Magnitude and Importance of Project Impacts
and
Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

Determination of Significance - Type 1 and Unlisted Actions

SEQR Status: Type 1 Unlisted

Identify portions of EAF completed for this Project: Part 1 Part 2 Part 3

Upon review of the information recorded on this EAF, as noted, plus this additional support information as submitted by the applicant and based upon the knowledge of Planning Board members

and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the Town of Oswego Planning Board _____ as lead agency that:

A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.7(d)).

C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.

Article 1. Preliminary Statement. Among the matters of mutual inducement which have resulted in the execution of this Agreement are the following:

1.01. The Agency is authorized and empowered by the provisions of Title 1 of Article 18-A of the General Municipal Law of the State of New York (the "**State**"), as amended, together with Chapter 234 of the Laws of 1973 of the State of New York, as amended from time to time (collectively, the "**Act**") to grant "financial assistance" (as defined in the Act) in connection with "Projects" (as defined in the Act) and to lease or sell the same upon such terms and conditions as the Agency may deem advisable and designate an agent for constructing, installing and equipping "projects" (as defined in the Act).

1.02. The purposes of the Act are to promote, attract, encourage and develop recreation and economically sound commerce and industry in order to advance the job opportunities, health, general prosperity and economic welfare of the people of the State, to improve their recreation opportunities, prosperity and standard of living, and to prevent unemployment and economic deterioration. The Act vests the Agency with all powers necessary to enable it to accomplish such purposes, including the power to grant financial assistance, acquire and dispose of interests in real property and to appoint agents for the purpose of completion of projects undertaken by the Agency.

1.03. The Company submitted an application to the Agency (the "**Application**"), a copy of which is on file at the office of the Agency, requesting the Agency consider undertaking a project (the "**Project**") consisting of: (A)(1) the acquisition of a leasehold interest (or sub-leasehold interest) in approximately 58.70 acres of real property located on 8341 State Route 104 (tax map no. 199.00-01-08.01) (the "**Land**"); (ii) the construction on the Land of an approximately 20 acre solar farm, including, but not limited, to solar panels, inverters, transformers, switchboards, energy storage system, utility poles, perimeter security fencing and an access road (the "**Facility**"); (iii) the acquisition and installation in and around the Facility and/or for use in connection with the Project of various machinery, equipment, furnishings and other items of tangible personal property (collectively the "**Equipment**") (the Land, the Facility and Equipment are hereinafter collectively referred to as the "**Project Facility**"); (B) the granting of certain financial assistance in the form of an exemption from real property taxes (the "**Financial Assistance**"); and (C) the lease (or sub-lease) of the Land and the Facility by the Company (and/or the owner of the Land) to the Agency pursuant to a lease agreement; and the sublease of the Project Facility back to the Company (and/or the owner of the Land) pursuant to a sublease agreement.

1.03(a). All documents necessary to effectuate the Agency's undertaking of the Project and the granting of the Financial Assistance between the Agency and the Company, including but not limited to, a company lease, an agency lease, a project agreement, an environmental

1.05. The Agency has determined that the acquisition or continuation of a controlling interest in, and the construction, installation and equipping of the Project Facility and the subleasing of the same to the Company will promote and further the purposes of the Act.

1.06. On June 23, 2020, the Agency adopted a resolution (the “**Inducement Resolution**”) agreeing, subject to the satisfaction of all conditions precedent set forth in such Resolution, determining that the leasing of the same to the Company will promote further purposes of the Act.

Part 3 Determination of Significance**

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Based upon an examination of the SEAF prepared by the Company, the criteria contained in 6 NYCRR §617.7(c), and based further upon the Agency's knowledge of the area surrounding the Project Facility, all the representations made by the Company in connection with the Project, and such further investigation of the Project and its environmental effects as the Agency has deemed appropriate, the Agency makes the following findings and determinations with respect to the Project pursuant to SEQRA:

- (a) The Project consists of the components described in the third WHEREAS clause of th PILOT resolution dated June 23, 2020;
- (b) The Project constitutes an "Unlisted Action" (as said quoted term is defined in SEQRA);
- (c) The Project will not have a significant effect on the environment, and the Agency hereby issues a negative declaration for the Project pursuant to SEQRA, attached hereto as Exhibit "A", which shall be filed in the office of the Agency in a file that is readily accessible to the public.
